

SCIENCE INTERNATIONAL SCHOLARSHIPS

"The science courses at The University of Queensland are well structured, and there's lots of critical thinking and problem solving involved.

The lecturers are very approachable and knowledgeable."

Jia Li Xue

Bachelor of Applied Science
2013 UQ Science International
Scholarship recipient

Available for outstanding international students enrolling in undergraduate or postgraduate coursework science programs at The University of Queensland.

Scholarship details

The University of Queensland offers a number of scholarships for high achieving international students who can demonstrate their potential to contribute to science.
