

Postgraduate Coursework Program in

VETERINARY SCIENCE

This program will train you in the field of **VETERINARY DIAGNOSTIC PATHOLOGY**. You will graduate with the skills and knowledge to become a veterinary pathologist with enhanced research and diagnostic skills.

Commencing:
Semester 1 or Semester 2

Location:
Gatton

Delivery Mode:
Internal

Veterinary Science at The University of Queensland attracts some of the highest achieving students from Australia and internationally, and produces veterinarians who are in high demand across the world.

The University of Queensland's postgraduate programs in Veterinary Science offer you a higher degree qualification that will enhance your previous veterinary studies in a general disciplinary area and qualify you for enrolment in a higher degree. The field of study currently offered is Veterinary Diagnostic Pathology.

Choose the Veterinary Diagnostic Pathology field of study to build your knowledge in the pathology and modern fields of infectious disease diagnosis, molecular pathology as well as veterinary diagnostic techniques. You will learn about the pathogenesis of diseases and improve your diagnostic techniques for disease control, prevention and public health.

You will graduate with the skills and knowledge to become a veterinary pathologist with enhanced research and diagnostic skills. You will also undertake a research project and investigate a subject area, working closely with academic staff members experienced in research.

These postgraduate programs have been developed by specialist academics in consultation with industry. They include the latest research developments to ensure you receive the most relevant, up-to-date knowledge and expertise to put you at the forefront of the veterinary profession.

You will access world-class animal science facilities including the \$100 million veterinary science facilities, the Native Wildlife Teaching

and Research Facility and the Queensland Animal Science Precinct (formerly known as the Centre for Advanced Animal Science).

Career opportunities

By choosing Veterinary Diagnostic Pathology as a field of study, you will be qualified to work in the field of diagnosis of animal diseases, as well as in teaching and research pertaining to this field, or as a consultant for disease control. You may work in diagnostic laboratories (including private or government owned laboratories, contract laboratories, zoos or wildlife agencies), academic institutions, industry (pharmaceutical, biotechnological, chemical) or government agencies dealing with animal disease control.

CRICOS Provider Number 00025B

JEE YOUNG OH Veterinary Science graduate

UQ is known as a university with diverse programs and great facilities – even in my home country of Korea.

The veterinary science facilities at UQ are excellent and I believe it would be hard for other universities to compete with that. I settled in very quickly and love the Gatton campus.

Program structure

Graduate Certificate in Veterinary Science

- 8 units (0.5 year full-time or part-time equivalent)

Graduate Diploma in Veterinary Science

- 16 units (1 year full-time or part-time equivalent)

Master of Veterinary Science

- 24 units (1.5 years full-time)

Sample courses

- Advanced Veterinary Topic
- Veterinary Diagnostic Laboratory Techniques
- Directed Studies in Molecular Genetics
- Introduction to the Molecular Biology Laboratory
- Diagnostic Pathology
- Graduate Research Project

Entry requirements

Graduate Certificate in Veterinary Science

Program code 5611

CRICOS Code: 084719K

Bachelor degree in the area of veterinary science; or an approved discipline; or 5 years of work experience in the same discipline.

Graduate Diploma in Veterinary Science

Program code 5612

CRICOS Code: 084720F

Bachelor degree in the area of veterinary science; or an approved discipline.

Master of Veterinary Science

Program code 5613

CRICOS Code: 084728J

Bachelor degree in veterinary science or an approved discipline; Graduate Certificate or Graduate Diploma in Veterinary Science.

International Students: English Proficiency

IELTS overall 6.5; writing 6, reading 6, speaking 6, and listening 6. For other English Language Proficiency Tests and Scores approved for UQ, view the English proficiency policy at <http://future-students.uq.edu.au/applying/english-language-proficiency-requirements>.

In the event of any conflict arising from information contained in this publication, the material approved by The University of Queensland Senate shall prevail.

CHOOSE UQ

LEADING RESEARCH

Ninety five percent of UQ's broad fields are now above or well-above world standard, and none are below (2015 Excellence in Research for Australia (ERA) assessment)

INTERNATIONAL REPUTATION

UQ is one of only three Australian members of the global Universitas 21, a founding member of the Group of Eight (Go8) universities, and a member of Universities Australia

ESTEEMED TEACHERS

More national teaching awards than any other Australian University

GLOBAL LEADER

Ranked in the top 50 in the world overall (QS World University Rankings, 2015-2016)

SUCCESSFUL GRADUATES

UQ graduates enjoy full-time employment rates and salaries higher than the national average

WORLD-CLASS FACILITIES

Access state-of-the-art laboratories and research facilities

VIBRANT CAMPUSES

Dynamic on campus environment, with over 190 sporting and cultural clubs and societies
