#### Courses that must be taken at home institute

- BSc and BBiotech: (Single) Major is a standard major where students are required to complete 16 units for a major within their specialised area.
- Extended major is where students are required to complete 24 units for an extended major within their specialised area.
- Some majors may include restrictive study plans, and not all course options will be available to students.
- If you wish to receive less credit to make your study plan more flexible and have more course options, or add a second plan (major, extended major or minor) please advise your agent or note this on your application form.

#### IMPORTANT NOTE:

- Credit from all polytechnics in Singapore is currently in the process of being reviewed; and therefore the above is a guide ONLY. Credit is not final until it is assessed by UQ after receiving an application.
- Credit eligibility is subject to students meeting the entry requirements for the program for which they are applying.
